AWAKEN THE DELICATE EYE AREA

The first signs of ageing appear around the eyes where skin is more prone to dryness, fine lines and wrinkles. The eye area also shows signs of stress, lack of sleep, and poor diet.

The HydraFacial Perk Eye treatment refreshes with key ingredients horse chestnut seed extract and arnica flower extract – leaving this delicate area toned, firmed, and hydrated.

BENEFITS OF HYDRAFACIAL PERK EYE:

- Simply takes 10 minutes
- Uses patented, roller-flex technology to brighten and hydrate the eye area
- Provides immediate and long-lasting results
- Includes an in-clinic treatment + a take-home serum for daily applications
